

# POLYTECH Excellence Master Class

Implants manufactured by POLYTECH – QUALITY made in Germany 

Constantin Stan

## Aesthetic Plastic Surgery Bucharest 2017

### Dates 2017

- ▶ 10 – 12 January
- ▶ 21 – 23 February
- ▶ 21 – 23 March

### Schedule

- 1st day: 14.00 to approx. 20.00 (free evening)
- 2nd day: 10.00 to approx. 20.00, dinner at 21.00
- 3rd day: departure day (optional: additional surgeries)

### Venue

S Clinic, Bucharest, Romania

## TOPICS

(subject to change on short notice)

### MORNING LECTURES

1. Breast aesthetic enhancement with anatomical implants (what, when and how).  
Preoperative patient evaluation, implant selection and surgical planning.
2. Implant selection with Diagon\Gel® 4Two breast implants, a simplified algorithm.
3. Evolution of breast implants – is there anything worth considering among new implants?
4. POLYTECH's anatomical Diagon\Gel® 4Two breast implants.
5. Macro, micro, nano – textured or polyurethane breast implants.  
Polyurethane breast implants: facts and fiction.
6. Breast augmentation: MULTIPLANE type 1.
7. Multiplane surgical technique in aesthetic breast enhancement.
8. Surgical planning and markings in breast augmentation (MULTIPLANE Type 1, 2).
9. Subfascial breast augmentation with periareolar nipple reduction

### AFTERNOON LIVE SURGERIES

(streaming from the S Clinic's O.R.)

1. Patient evaluation and surgical planning of the scheduled afternoon surgeries.
2. Breast augmentation with Microthane® (polyurethane) coated implants
3. Secondary breast augmentation with anatomical Microthane® (polyurethane) implants
4. Breast augmentation with Diagon\Gel® 4Two breast implants
5. Secondary breast augmentation with Diagon\Gel® 4Two breast implants
6. Optionally: Face rejuvenation surgeries

Open discussions will be held during and after each presentation as well as during the course of live surgery demonstrations.

Lectures and video surgeries will be provided on a USB key and substituted or added as case load demands.

A digital version of the POLYTECH software for the Diagon\Gel® 4Two breast implants selection will be available on the USB key.

Additionally, a large number of articles and literature regarding polyurethane implants and some related topics may be found on the USB key.
